

# Cybersecurity: Protecting Yourself and Your Family

*Supplement to Elder Quest Presentation – Brandt Redd – 22 January 2025*

---

See <https://brandtredd.org/ElderQuest2025> for ideas, links, and other valuable information. As PassKeys mature, I will also post information and guidance here.

## Adversarial Mindset: Think Like Your Attacker

### **How do they contact you?**

- Phone
- Email
- Text

### **What are they after?**

- Your Money
- Your Information
- Your Credentials

### **How do they motivate you?**

- Emotional Appeal
- Urgency

## Password Guidelines

Derived from:

<https://support.microsoft.com/en-us/windows/create-and-use-strong-passwords-c5cebb49-8c53-4f5e-2bc4-fe357ca048eb>

- At least 12 characters, 14 or more is better.
- Not a word that can be found in a dictionary or the name of a person, character, product or organization.
- Significantly different from previous passwords.
- Don't share the password with anyone; not even a friend or family member.
- Never send a password by email, instant message or other means that is not secure.
- Use a unique password for each site or service.
- Do not write your passwords on sticky notes or on anything that's close to your computer or the thing being protected.
- Enable multifactor authentication whenever available.

## Brandt's Password and Authentication Guidelines

- Choose your browser intentionally. Create an account and let it back up your info in the cloud.
- Understand what an Incognito Window does.
- Choose a phone authenticator app intentionally.
- Use a browser password management feature or plug-in. Same brand as your authenticator app.
- Record passwords immediately when they are created.
- Keep your password record somewhere that certain trusted people can find it, and where untrusted people will not find it.
- Use fake, throwaway accounts whenever possible.
- Encrypt your hard drive – it's built into Windows and MacOS but not always turned on.
- Watch for PassKeys – Nascent but maturing soon!

## Stay Familiar with Fraud Types – They Change
